1. Introduction

MADUFAFA Nursery and Primary School is a community-based school established by **Making a Difference in Uganda Face to Face (MADUFAFA)** to provide affordable and quality formal education to children from vulnerable, disadvantaged, and low-income families.

MADUFAFA, a local NGO/CBO established in **2015**, initially supported vulnerable children to access education through partnerships and donor assistance. Before the COVID-19 pandemic, the organization was supporting **85 children** in different schools.

Following the COVID-19 pandemic, many donors withdrew their support, resulting in the discontinuation of educational assistance for all 85 children. As a result, many of these children dropped out of school.

This situation motivated MADUFAFA to establish its own community school as a sustainable response to the education challenges facing vulnerable children. **MADUFAFA Nursery and Primary School** was therefore established to ensure that children from less privileged families continue to have access to formal education despite the financial difficulties faced by their families.

2. Our Purpose

The school exists to provide **accessible, affordable, and quality education** to children, particularly those from vulnerable and economically disadvantaged families.

We believe that poverty should not prevent a child from going to school. Our approach is therefore to keep school costs as low as possible while providing a supportive learning environment where every child is valued and encouraged to succeed.

3. Our Vision

To be a leading community school providing affordable, quality and inclusive education that transforms the lives of children and their communities.

4. Our Mission

To provide affordable and quality nursery and primary education to children from all backgrounds, with special attention to vulnerable and less privileged children, while nurturing their academic, social, moral, and practical skills.

5. Affordability

MADUFAFA Nursery and Primary School was established **not as a profit-making institution, but as a community response to the education needs of less privileged children.**

We deliberately keep our school fees affordable so that children from low-income families can access formal education. The school operates by making responsible use of the limited

resources available while continuously seeking partnerships and support to improve educational services.

6. Areas Where We Need Support

As a young community school operating with limited resources, MADUFAFA Nursery and Primary School continues to face several challenges. We welcome partnerships and support in areas including:

- Construction and improvement of classrooms.
- Desks and other classroom furniture.
- Scholastic materials for vulnerable learners.
- School meals.
- Clean water and sanitation facilities.
- Scholarships and sponsorship for children from extremely vulnerable families.

7. Partnership Opportunity

MADUFAFA Nursery and Primary School welcomes partnerships with individuals, NGOs, community organizations, companies, foundations, churches, development agencies, and other well-wishers who share our belief that **every child deserves an opportunity to receive quality education.**

Support to the school can help us improve the learning environment, keep education affordable, support vulnerable children, and provide teachers with the resources they need to deliver quality education.

8. Conclusion

MADUFAFA Nursery and Primary School is more than a school. It is a **community initiative created to keep the door to education open for children who might otherwise be left behind.**

Our goal is to continue providing affordable, quality education while building partnerships that will enable the school to grow, improve its facilities, strengthen teaching and learning, and reach more vulnerable children.
